

Year of the Pig

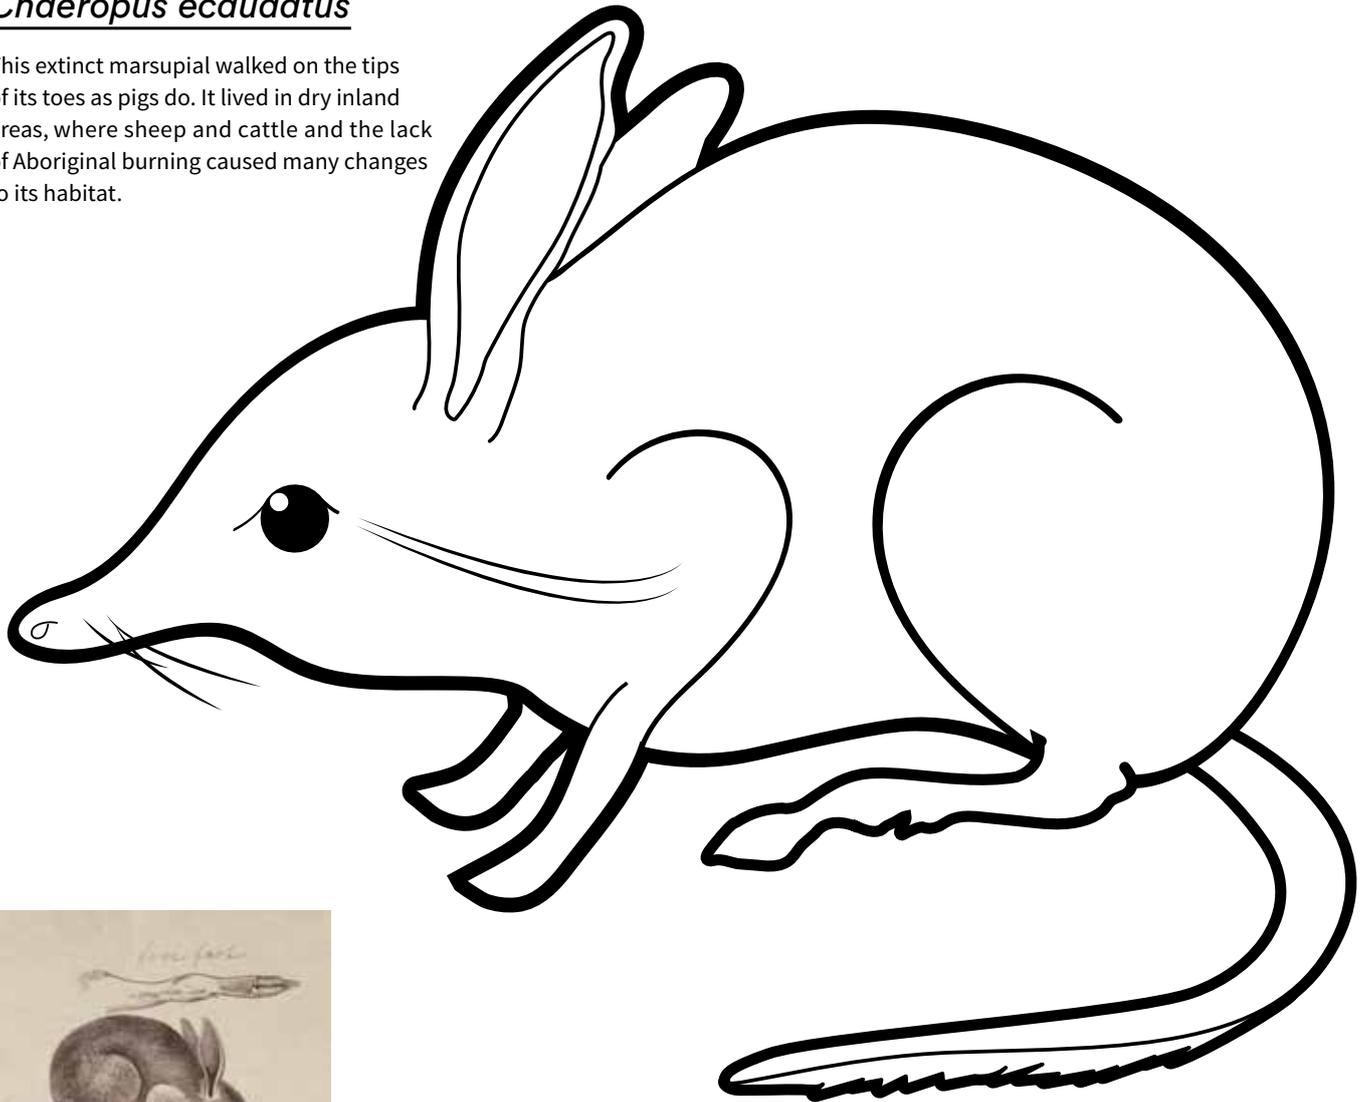

Pigs were born in

1935 1947 1959
1971 1983 1995
2007 2019

Pig-footed Bandicoot *Chaeropus ecaudatus*

This extinct marsupial walked on the tips of its toes as pigs do. It lived in dry inland areas, where sheep and cattle and the lack of Aboriginal burning caused many changes to its habitat.

Creative and Curious

Pigs are energetic, creative and enthusiastic. They let themselves enjoy life and love entertainment. They are a bit materialistic, but this is motivation for them to work hard.
